

Bresser Clearview 7-in-1 WiFi Weather Station - includes Light Intensity, UV, Ice/Frost Alert 7002586

Product Images

Short Description

View your weather on the colour display, mobile app or online! The Bresser 7-in-1 Wi-Fi weather station combines a unique compact design with the ability to publish your weather conditions online via WiFi connection.

Description

The 7-in-1 outdoor sensor reliably transmits measured values for wind speed, wind direction, humidity, temperature, rainfall, UV level and light intensity to the base station. You'll see current and historical values

on the colour display. From the collected measured data, the weather station calculates a very reliable local weather trend forecast for the next 12-24 hours, depicted by six graphic symbols.

The base station allows internal storage and evaluation of the data over a period of 24 hours.

An alarm can be programmed for maximum and minimum values, which triggers both an acoustic and a light alarm signal when the specified value is reached. There is also a special frost / ice warning alarm.

Key Features

- Connects to the Internet via a WiFi connection and once connected synchronises the time and date.
- Weather conditions can be uploaded to popular weather websites www.wunderground.com, www.weathercloud.net and www.awekas.at
- View your live weather data on your mobile device
- Receives weather data from the 7-in-1 sensor via 868 MHz
- Base station displays a wide range of measurements and historical data
- Indoor temperature (-40°C to 70°C) and humidity (%) with Comfort indicator
- Outdoor temperature (-40°C to 80°C) and humidity (%)
- Light intensity
- UV level
- Wind direction and speed (gusts & average) up to 180 km/h
- Beaufort index (scale for classifying wind strengths)
- Rainfall with history (hour / day / week / month / total)
- Air pressure (hPa/bar)
- Weather forecast (sunny, partly cloudy, cloudy, rainy, stormy, snowy)
- Perceived outdoor temperature weather index for dew point, wind chill factor and heat index
- Weather trend indicator
- Moon phase
- Sunrise and sunset times
- Alarm with snooze function
- Min/max memory (up to 24 hours)
- Ice/frost warning
- Three different display brightness levels: High / Low / Off
- Wall bracket and table stand
- Supports firmware updates
- Expandable - Monitor children's bedrooms/greenhouse etc with up to seven [temperature & humidity sensors \(item no: BR-7009999\)](#).

Additional Information

Brand	Bresser
Contents	• Indoor base station/display unit with integrated stand • 7-in-1 multi outdoor sensor suite • Short mounting pole • Mounting shoe • Pipe clamp • Screws • Power adaptor for display unit with UK 3 pin plug and cable • User manual
Ideal For	Amateur, Interested, Gardeners
Dimensions	240 x 140 x 21 mm (display console)
Batteries	Display console (base station): 1 x CR2032 button cell type backup battery (included) Outdoor sensor suite: 3 x AA batteries (not included)
Power	Display console (base station): mains power, with battery backup
Sensors	• The 7-in-1 outdoor sensor suite includes sensors for wind speed, wind direction, humidity, temperature, precipitation, light intensity and ultra-violet light (UV) • Wireless transmission range to base station: 150 metres (in line of sight) • RF frequency: 868 MHz.
Installation	A pipe clamp and screws for attachment to poles (pipe diameter of about 25-33 mm), such as the optional Universal Mounting Pole Kit are already included.

Additional Options

Add Optional Additional Temperature & Humidity Sensors	Wireless Temperature & Humidity Sensor (BR-7009999)
Add Optional Protective Cover, With Solar-Powered Fan for Outdoor Temperature/Humidity Sensor (protects against rain and sunlight)	Protective Cover WS-02
Batteries	AA Alkaline Batteries x 10 Extra Value Pack
Mounting Options	Universal Mounting Pole Kit (WS-7717) - Limited Offer
	Universal Crank-shaped Mounting Pole Kit (WS-7715-CRANK)
