HACCP Digital Probe Lab Thermometer With 1.65m Cabled Probe

Product Images

Short Description

A high quality digital cabled probed thermometer with high accuracy, which conforms to HACCP specifications for food safety requirements. Fast and accurate, the unit is IP65 rated so it can also withstand water jets, making it east to keep clean.

The unit can display current temperature as well as highest and lowest readings. The unit has a hold function, optical and acoustic alarm. These can be set to sound when a certain high or low temperature had been reached. An icon will flash and a beeper alarm will sound.

The cable is a good size length, measuring 1.65meters and the penetration probe itself is 105mm long. The base has a detachable stand and the back has a magnet allowing it to be fixed to metal.

TFA are a German company who have been a manufacturer and supplying temperature equipment for over 50 years and we have been an authorised supplier in the UK for over 12 years. They offer only high quality products that conform to UK and European standards.

Description

Technical Specification

- Temperature range: -40°C to 200°C
- Resolution: 0.1°C
- Accuracy: +/-0.5°C at 0 to 50°C
- Accuracy: +/-1°C at -20 to 0°C, and 51 to 70°C
- Accuracy: +/-2°C at -40 to -20°C, and 70 to -200°C
- Penetration probe length 105mm
- Probe cable length 1.65 metre cable
- Min/Max function
- Measurement in either: °C or °F
- Adjustable alarm function for min or max when desired temperature is reached
- Conforms to HACCP food specifications
- IP65 Waterproof under water jets
- Detachable stand
- Magnetic back
- Dimensions: 51 × 87 × 18mm
- Warranty: 1-Year
- Manufacturer: TFA

Additional Information

Brand	TFA Dostmann
Humidity	no
Temperature	yes
Temperature Sensor	no
Wet Bulb	no
Clip-On	no
