Twin Plus Wireless Min/Max Thermo-Hygrometer

## Description

---

From TFA Dostmann, the Twin Plus digital thermo-hygrometer has some great features. The unit will record minimum and maximum temperature & humidity measurements reached, for both the indoor base station and the remote temperature sensor. The base station displays temperature & humidity, as well as the minimum & maximum values reached for both temperature & humidity since the last reset.

The temperature & humidity sensor has a handy screen and transmits across 30m open field. It is fully weatherproof and can be left outside all year round, exposed to the elements. There is also a humidity alarm built into the base.

The indoor base station also has a handy frost symbol, as well as a comfort level an indicator which works using the humidity measurement. The unit is finished in a modern aluminium look, with sleek silver writing.

### Temperature Range

- Indoor Range: from -10°C to 50°C
- Outdoor Range: from -20°C to 50°C
- Measure Units: °C and °F

### Humidity Range

- Indoor Range: from 20% to 95%
- Outdoor Range: from 20% to 99%
- Measure Units: %

### Minimum/Maximum

- Memory: 24 hour
- Reset: Auto

### Comfort Level

- Happy face display when indoor temperature and humidity reach a certain measurement

### Alarms

- Temperature Alarm
- Frost alert

### Transmission

- Distance: 30m Open Field

- Type: Wireless

### **Dimensions**

- Display: L 137 x D 17 x H 83mm

### **Battery**

- Type: AAA (Not included)
- Life: 12-18 months

### **Supplied With**

- 1 x Twin Base Station
- 1 x 30-3048 Temperature and Humidity Sensor

## Additional Information

Brand	TFA Dostmann
Display On Sensor	Digital
