

# Klima Home Wireless Min/Max Thermo-Hygrometer

## Product Images

## Short Description

The unit is supplied with 3 temperature & humidity sensors which can be placed up to 100m (open field) away from the base station.

## Description

---

The Klima Home thermo-hygrometer is a great unit, packed full of features to monitor the temperatures all year round.

The unit is supplied with three temperature & humidity sensors which can be placed up to 100m (open field) away from the base station, and will wirelessly transmit its readings back to the console.

The base has an internal sensor built in, this will enable you to remotely monitor the temperature & humidity in up to 4 locations - this is ideal for gardens, bedrooms, loft, cellars, nurseries and many more locations.

The base station has an inbuilt radio controlled clock, which will synchronize with the atomic clock, meaning the time is never wrong - it also means you will never need to manually change it when the clocks move back and fourth. The unit also displays the date, and a comfort level indicator, which will provide a happy or sad faced based on humidity levels.

### Temperature

- Indoor Range: -10°C to 60°C
- Outdoor Range: -40°C to 60°C
- Resolution: 0.1°C
- Measure Units: °C
- Reading: Indoor every 10 seconds / Outdoor every 4 seconds

### Humidity

- Indoor Range: 1% to 99%rh
- Outdoor Range: 1% to 99%rh
- Resolution: 1%
- Accuracy : +/- 3%
- Measure units: %rh
- Reading: Indoor every 20 seconds / Outdoor every 4 seconds

### Minimum / Maximum

- Memory: 24 hour
- Reset: Manual

### Comfort Level

- Happy face display when indoor temperature is between +19°C and +20°C with relative humidity of 40% to 60% and sad face display outside these ranges.

### Calibration

- Unit can be calibrated upon request, please call  us for more information

## Transmission

- Distance: 100m open field
- Type: Wireless

## Time

- Radio controlled
- Display: 12 or 24 hours
- Time zone: +/- 9 hours
- Calendar with date / month or day / date
- Manual setting

## Dimensions

- Display: H 128 x W 128 x D 32mm
- Transmitter: H 160 x W 43 x D 23mm

## Battery

- Type: 5 × 1.5v AA (included)
- Life: Approx 12-18 months

## Supplied With

- 1 x Indoor digital display unit
- 1 x Outdoor temperature transmitter 30-3180-IT
